

2nd Faculty Development Programme on Basics of Medical Education Technologies for faculty members of AIIMS Kalyani from 7th to 9th September 2022

Medical Education Unit of AIIMS Kalyani has successfully conducted the 2nd **Faculty Development Programme on Basics of Medical Education Technologies** from 7th September 2022 to 9th September 2022; with the aim to improve the quality of medical education in our institute by sensitising the medical faculty on newer concepts in teaching and assessment methods. The three-day workshop was inaugurated by Prof. Ramji Singh, Honourable Executive Director in the presence of Dr. Kalyan Goswami, FIC Academics, Prof. Ajay Mallick, Medical Superintendent, Dr. Rekha Dutt, Chairperson Medical Education Unit, Resource persons and participants. Twenty sessions on various topics of Medical Education Technologies were taken by trained resource persons of our institute using various teaching learning media, role play, flipped classroom, offline and online activities. Fourteen faculty members of AIIMS Kalyani actively participated in the workshop in various activities including individually presenting a seven minutes microteaching session; a time-tested method of improving teaching skills. The feedback given by the participants shows that the workshop has achieved the program objectives. The workshop was successfully concluded with valedictory session.
