## PAC - Proprietary Article Certificate

We hereby confirm and certify that the TBS iNsiGht – an advanced, imaging software for bone densitometers (DXA) – has unique software that allows bone microarchitecture evaluation from bone densitometry examination. Thanks to the Trabecular Bone Score (TBS) calculation safely developed by our company. TBS iNsiGht software therefore has unique features, which are not offered by any other imaging software for bone densitometer in order to calculate the Trabecular Bone Score (TBS).

The system is having following unique features in connection with the calculation of the Trabecular Bone Score (TBS):

- Compatible with all models of Hologic DXA systems : Horizon series A, C, Ci W, Wi and Discovery series A, C, Ci, W, Wi.
- Automatic detection of compatible AP spine DXA scan (accessed from DXA scan folder).
- Automatic analysis of TBS (Trabecular Bone Score) index of bone microarchitecture.
- TBS can be analyzed on any DXA scans acquired in Fast Array, Array or High Definition mode.
- Includes multiple ethnicity reference curves.
- Easy-to-use, retrospective patient analysis possible.
- TBS iNsiGht module: automatically generated report for individual patients based on a combined model of BMD and TBS.
- Automatic and customizable patient reports (examination and trending reports) with edition and storage of comments on reports.
- Automatic analysis of FRAX adjusted for TBS values.
- Calibrated using a dedicated TBS phantom
- TBS DICOM module required for communication with PACS systems (optional).

Hence, the TBS iNsiGht software with the above unique features is the proprietary product of Medimaps.

We also hereby extend our full guarantee and warranty as per the Conditions of tender contract for the Trabecular Bone Score Software and services offered for supply under the tender by the above firm.

Kind regards,

  
Gino Fiore
